UMBRELLA
CORPORATION

AETERNA PHARMA EXPENSION

October 14, 1969

The Aeterna facility represents a multi-billion dollar investment into the future of biological sciences and corporate sovereignty. By prioritizing long-term stability and scientific independence, Umbrella Corporation continues to solidify its position as a global leader in high-level medical development.

The Board of Directors expects operations at the new site to commence early next year. This expansion is strategically designed to drive unparalleled growth within the consumer medical division, ensuring that Umbrella's pharmaceutical products remain the global standard for reliability and efficacy.
